Beige with a lighter beige tummy.

(Girl) Birthday: July 24th

Lucas: On April 4th the three months and Leaves had a picnic party to celebrate April's birthday.

Leo: They found an open field next to a lake where there were no hunters.

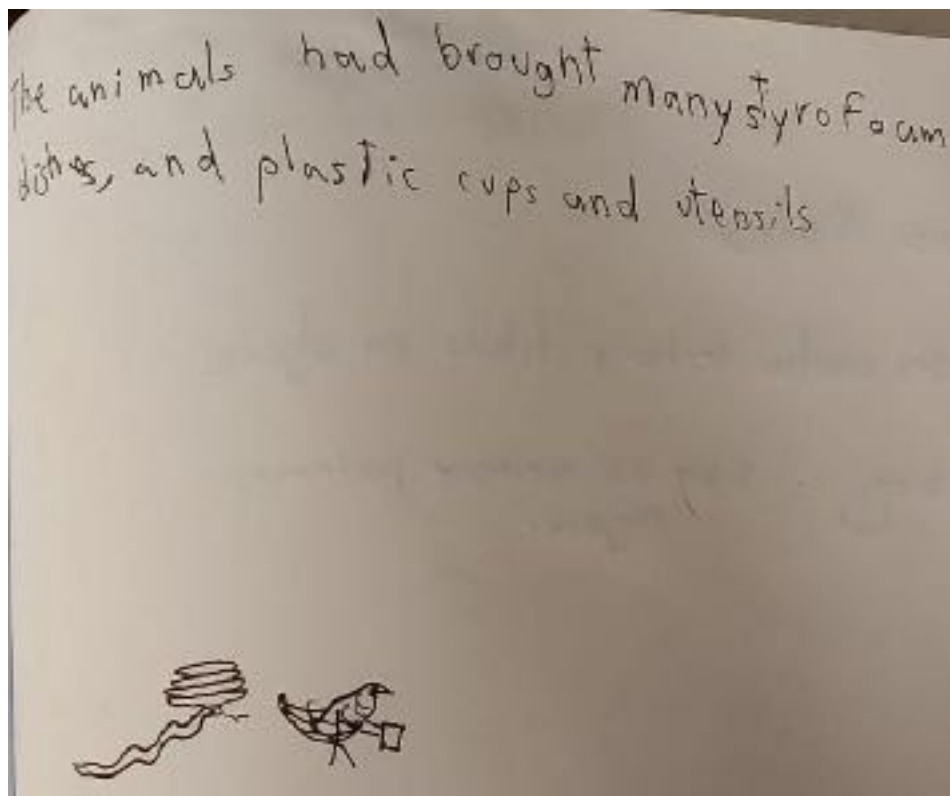

Kiara: They threw plastic confetti in the air, and the confetti hit a parrot.

Abril: The parrot fell down, but it was not injured. It started pecking at all of the animals.

Haniel: The other animals fought back, and they fought so much that they got tired and decided be friends. They all ended up with cuts and scratches and had to help cure one another.

Kian: The animals had brought many styrofoam dishes, and plastic cups and utensils.

Kian

Tomás: A meerkat appeared and found the plastic confetti on the ground. It thought the

confetti was candy, and it ate it! It choked on the plastic.

Benito: The animals ran to the lake to get water for the meerkat, but they couldn't find good water because there was too much garbage floating in the lake, so they had to go to the other side to find clean water.

Lucas: They found clean water, gave it to the meerkat and saved it. The Meerkat said, "thank you," and told them his name was July.

Leo: Out of nowhere, an anaconda appeared. It came close to April, and April thought it wanted to eat her!

Kiara: April was very scared. June and July were so scared that they ran away to the lake.

Benito: April climbed up a tree to escape, but then Leaves came and told the anaconda to leave.

April was very scared. June
and July were so scared
that they ran away to the lake.

Lucas: The parrot and the anaconda came back,
and told the other animals that the anaconda
wasn't bad, and it didn't want to eat April. It was
just helping to pick up garbage and recycle it.

The Parrot and the anaconda came back,
and told the other animals that the anaconda
wasn't bad, and it didn't want to eat April. It was
just helping to pick up garbage and recycle it.

Leo: The anaconda, whose name was Giant Snake, said that he was making a thousand little boats out of the garbage. He had thought April was a piece of paper, and he was going to use her as a sail for a boat. The parrot, whose name was August, said he would help Giant Snake.

Benito: Giant Snake started a company to recycle garbage and all the animals helped him. They got some cars to collect the garbage.

Lucas: The name of the company was "5 Months and 2 Snakes".

Kiara: From then on, whenever the animals had a picnic or a party, they never used plastic. They had many more adventures with their company, and was a treasure hunt!
